

Advanced ECDL: Spreadsheets 2007

Length - 60 hours over 10 months

Course Code

Y2NAX

WHO IS THE COURSE FOR?

Our Advanced ECDL Spreadsheets course is ideal for those who wish to acquire in-depth, specialised skills in Spreadsheets. It will allow you to demonstrate your skills and increase your understanding in the use of more advanced operations associated with spreadsheet applications enabling candidates to manipulate and produce precise information and conduct crucial data analysis. The Advanced ECDL Spreadsheets certification has been specifically designed to provide candidates with the skills to exploit the full potential of the spreadsheet application.

DESCRIPTION

This is a self study course which means you can study at home, workplace or wherever you choose at times that are convenient for you. You do not have any classes to attend.

The Advanced ECDL is a Level 3 qualification (QCF). This is roughly equivalent to Level 6 in Scotland (SCQF). It is accredited by the British Computer Society (BCS).

Advanced ECDL Spreadsheets (Module AM4) is a high level certification programme which presents candidates with the opportunity to bring their spreadsheet skills to an expert level. It is an online course using Microsoft Excel 2007 and allows students to use the full potential of the spreadsheet application to produce higher quality management information.

Please note that although there are four Advanced ECDL Modules and these can be enrolled on, completed and certified independently of each other. You only need to complete all four modules if you choose to.

Individuals with Advanced ECDL Spreadsheets certified skills can:

- Produce higher quality information
- Pinpoint key information quicker and more easily
- Provide more sharply-defined analysis
- Produce more sophisticated reports
- Use advanced editing, data handling, functions and analysis features
- Use macros within the spreadsheets application

The materials are provided as web-pages for you to work through online. As you progress through the course materials you will find written explanations of each feature, followed by practical exercises.

You will be supported throughout the course by a specialist Distance Learning Tutor. Your tutor will contact you (via your Aberdeen College email account) within 7-10 working days of receiving your welcome letter and materials. As you progress they will continue to make regular contact to offer support and guidance, usually by e-mail but sometimes by phone, to ensure you are making good progress and to support your learning throughout. Please note that you must be able to study independently through the course materials.

HOW WILL I BE ASSESSED?

An assessment will be carried out in the college assessment centre, when you have completed the course work. The cost of the Advanced Test is £60 payable at the time of booking. Payment can be made in cash at the Assessment Centre Reception in LG10, by cheque made payable to Aberdeen College or by Credit or Debit Card by telephoning the Assessment Centre on 01224 612237.

ENTRY REQUIREMENTS

Prospective students should ideally have the ECDL certification and/or previous experience using computers and common software applications. It is essential that you have previous experience in using a computer, the Windows interface and Windows terminology.
